Property Description

This newly constructed, three-bedroom home beautifully pairs its contemporary architecture with stunning views of the Pacific Ocean. Casa Blanca was built by one of the premiere architectural design and construction firms in Guanacaste, and it offers its guests a serene environment while being surrounded by the tranquility and peace of Mother Nature. Upon entering Casa Blanca, you will find yourself in the kitchen and living area, where you can see wide open spaces, tray ceilings that create captivating focal points, and high-end accordion style doors that open beautifully to the blue skies, lush jungle, and turquoise waters of Pacific Ocean. Casa Blanca also has a cozy and cheerful family room, with teak ceilings and the same dramatic views of the ocean. The home has three bedrooms, each of which have their own en-suite bath, and have pristine ocean views. Best of all, Casa Blanca has a grand outdoor entertaining area, complete with covered balconies (to enjoy rain or shine), a large bi-level, infinity edge pool with Jacuzzi area, and, of course, jaw dropping views of the ocean and the highly anticipated Flamingo Marina, which just accepted its first boats into the harbor.
