Property Description

Ocean View Home with Acreage is an incredible opportunity to own a property with magnificent sights and acreage located in a secure gated community for under \$300,000. The private community of Alazan is a gated development located approximately 40 minutes from Quepos and the world class Marina Pez Vela to the South, and Jacó and its always engaging nightlife about the same distance to the North. The beaches and National Park of Manuel Antonio are less than an hour away as well. Ocean View Home and Acreage sits on the back side of Alazan and enjoys a ton of privacy with an incredible view of the ocean through the forest. The 2 bedroom house is built with steel framed construction which allows for easy remodeling and the potential addition of complementary rooms. With more than 3 acres of land there's also ample space for another home, guest house or pool if you like. The main house could also easily be divided and rented out as two separate units, or combined to create one single, large family home.
