Property Description

High ceilings, warm natural wood throughout, clean boho lines and light pouring in from every angle. At the center of the property sits a massive mango tree — anchoring the outdoor space and shading the pool, creating a natural gathering point that feels private, calm, and distinctly Costa Rica. The primary suite is the showstopper. Completely private and designed like a boutique retreat, it features an indoor shower, outdoor shower, and a custom soaking tub that blurs the line between indoors and out. It's the space guests remember — and the reason they book again. Two additional bedrooms each comfortably fit queen beds and include custom-built wardrobes, making the layout both practical and flexible for families, guests, or short-term rental use. The kitchen is fully equipped with Whirlpool appliances, designed for real cooking and easy hosting.. another detail that consistently performs well with vacation guests.
