Property Description

This budget friendly, two bedroom, two bath home of 1,076 square feet sits on approximately two acres; just high enough to catch the 180 degree ocean view and year round sunsets with the lush mountains behind it. There's a small rancho on the property that is the perfect place to relax and enjoy the views. There's also room to build a larger home and pool next to the existing home, and a caretaker's home or commercial operation along the public road. Great location and access! It is only a 1 minute ride from the Costanera (coastal road) and 1 mile from the beach in Matapalo. Quepos and the commuter airport is only 19 kilometers north. Dominical is only 15 minutes south. This property is perfect as a tropical getaway or the beginning of your private estate. Don't miss out. Contact me today to see this property!
