Property Description

Just a few minutes up the mountain behind Uvita, enjoy the surrounding wildlife and a view of the ocean from this 3 bedroom jungle home with a covered pool. Built in 2000 by one of the area's true pioneers, the home has a large master bedroom on the second floor with surrounding windows for ventilation, light and view. It's large enough for a king sized bed and sitting/desk area to make a complete private studio away from the rest of the house. Add in the upstairs kitchenette, bathroom and outdoor dining area and the whole upstairs could be a self contained space for you or B&B guests with a private outside entry. Downstairs there are two more bedrooms, another bathroom and a full sized kitchen with lots of shelves to organize your appliances, utensils and supplies. The living dining area easily accommodates you and your guests and it's easy to move outside to a comfortable patio where you can listen to the bordering creek, look out to the Pacific and watch the wildlife.
