Property Description

Casa Quemador is an upscale villa nestled in the Uvita jungle. Imagine waking up every morning to your own rainforest jungle and wildlife. It's a beautiful sight. The property also features a Balinese décor, an outdoor shower, and a private swimming pool. It consists of three villas, making it ideal for families who want space on vacation or a couple who wants to invest and transform it into a small retreat center. Each of the three buildings features Balinese décor with natural rock materials. It includes three bedrooms and three bathrooms in this 1314 square foot home. Each room features high-beam ceilings, ceiling fans, and air-conditioning units to keep the house cool. The main house includes one bedroom and an unfinished upstairs yoga platform that needs to be completed. The bedroom features a king-size bed, a small sofa, and a glass sliding door leading outside to your overflowing garden.
