Property Description

This fabulous 4 bedroom, 3.5 bathrooms modern home is located in the very popular mountain community above the town of Uvita. The elevation is approx 1000 ft which gives it incredible views and a great climate, but it is less than a 10 min drive down into the town of Uvita on very well maintained roads and only another 5 min to the most beautiful beaches in the country!!! The ocean view is centered on the famous whales' tail which is incredibly dynamic as the tide changes and the sunsets over the ocean are incredible. There are also views of Cano Island, a protected nature reserve 50 km out to see with some of the best scuba diving in the country!!! The first floor is very well laid out with a large modern kitchen with high-end appliances and quartz countertops, a large dining area, and a large living room, all connected creating a perfect space for entertaining large groups. There are accordion sliding glass doors on both the front and back of the house so you can open up the entire area allowing for incredible breezes and a great connection to nature.
