- Mountain View

Property Description

This 102-acre Development Property is an incredible piece of land surrounded by rainforest preserves, the tranquil Baru River, and the Pacific Ocean. This property called “Fire Mountain” by the indigenous Borucan native is perhaps the best we have come across in this special region and incomparable to any we’ve seen in the last 10 years. Baru has all of the right variables to build the project of your dreams. There are football field size plateaus overlooking the protected virgin rainforest preserves to the ocean. This protected rainforest means no obstruction of the ocean view for perpetuity. The adjacent preserve has a variety of eco-tourism outdoor activates including ziplining, guided nature tours, butterfly gardens, and much more. This is a great advantage to any development design on the property.Baru Development property has a concession well on site. The well has been accepted at 8.
